REELIN' IN THE YEARS

So...when asked to add a few words to the "Reelin' In The Years" collection, I got to thinking about all the generations of music that have helped get us from there to here. And, of course, for every artist that sparked a major change are the dozens of others influenced by it. Which proves, I guess, that what goes around does indeed come around again. Even for D-J's. There is something magical about having a career based on replaying the songs I started out playing on the radio, and the best part is getting to tie it all together on the show we fondly call "Reelin' In The Years." Actually, we fought over dozens of show titles before settling on the only one that gave us the latitude to play all the rock that's stood the test of time, including most of the songs on this CD series. What cannot be recreated, however, is the "*flavor*" of those times: lining up at the record store for the latest hot album, then spending hours listening to it in a friend's bedroom. Blacklight posters and lava lamps. The stars talking about the times and their music. The festivals, great and small. War and peace. Rock and roll. That's what our "Reelin' In The Years" radio show is all about — from a 90's perspective — and you can hear us in most cities across North America and as far away as Australia. So take a listen and rerun some of your favorite mental videos about who you were and what you were doing when these songs got you movin' — and forever may you be "Reelin' In The Years."
